

# Can you help the goats?

On the following pages, we are going to be practising applying our segmenting skills. Remember segmenting is the skill we use in phonics to help us spell words.

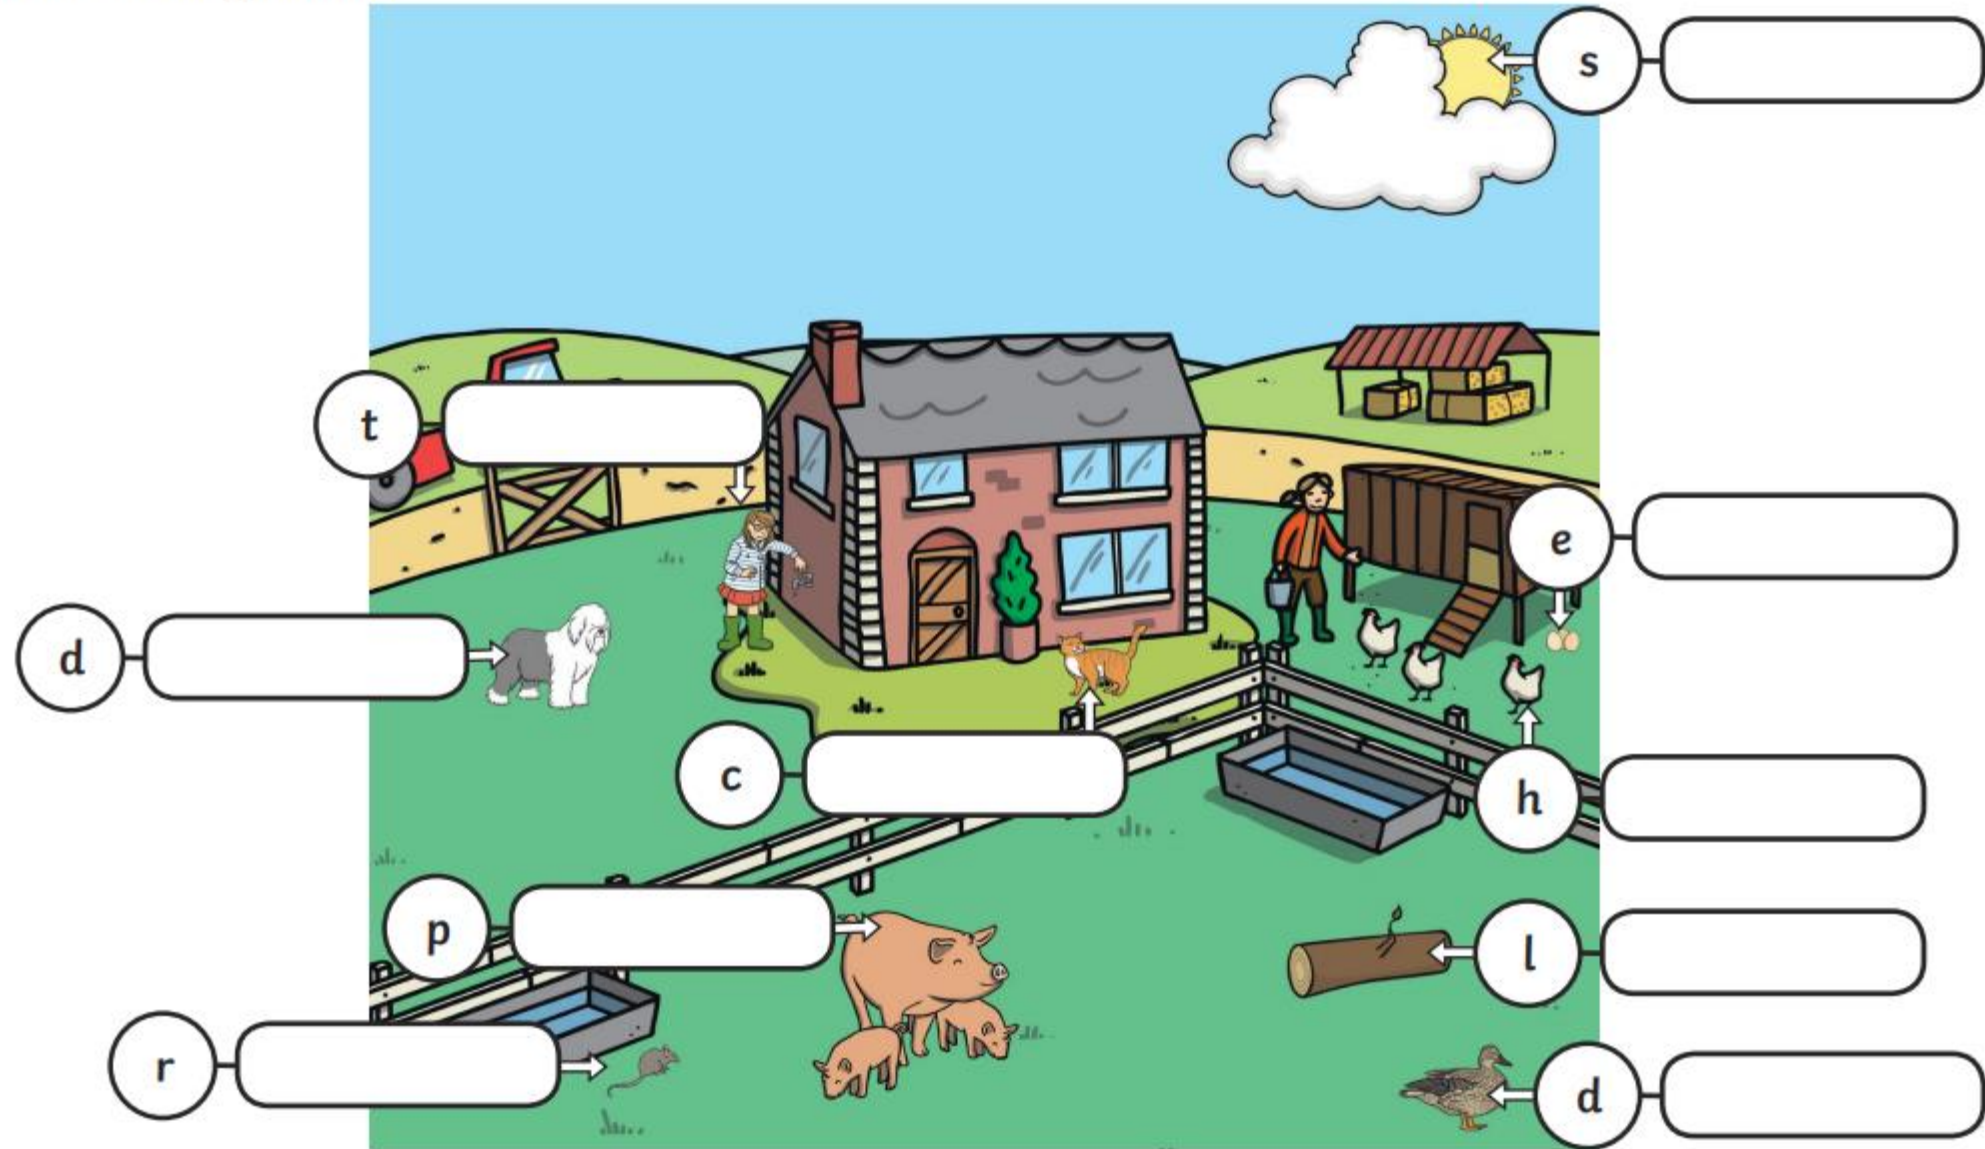

Please choose the activity that suits your child, remembering that some children have been taught all of the sounds needed to access the activity on page 3 whilst others may need more support.

Encourage your child to say the word out loud and then break it up into the sounds they can hear.

Have your child's sound mat out in front of them so that they can look for particular sounds if they can't remember what they look like!

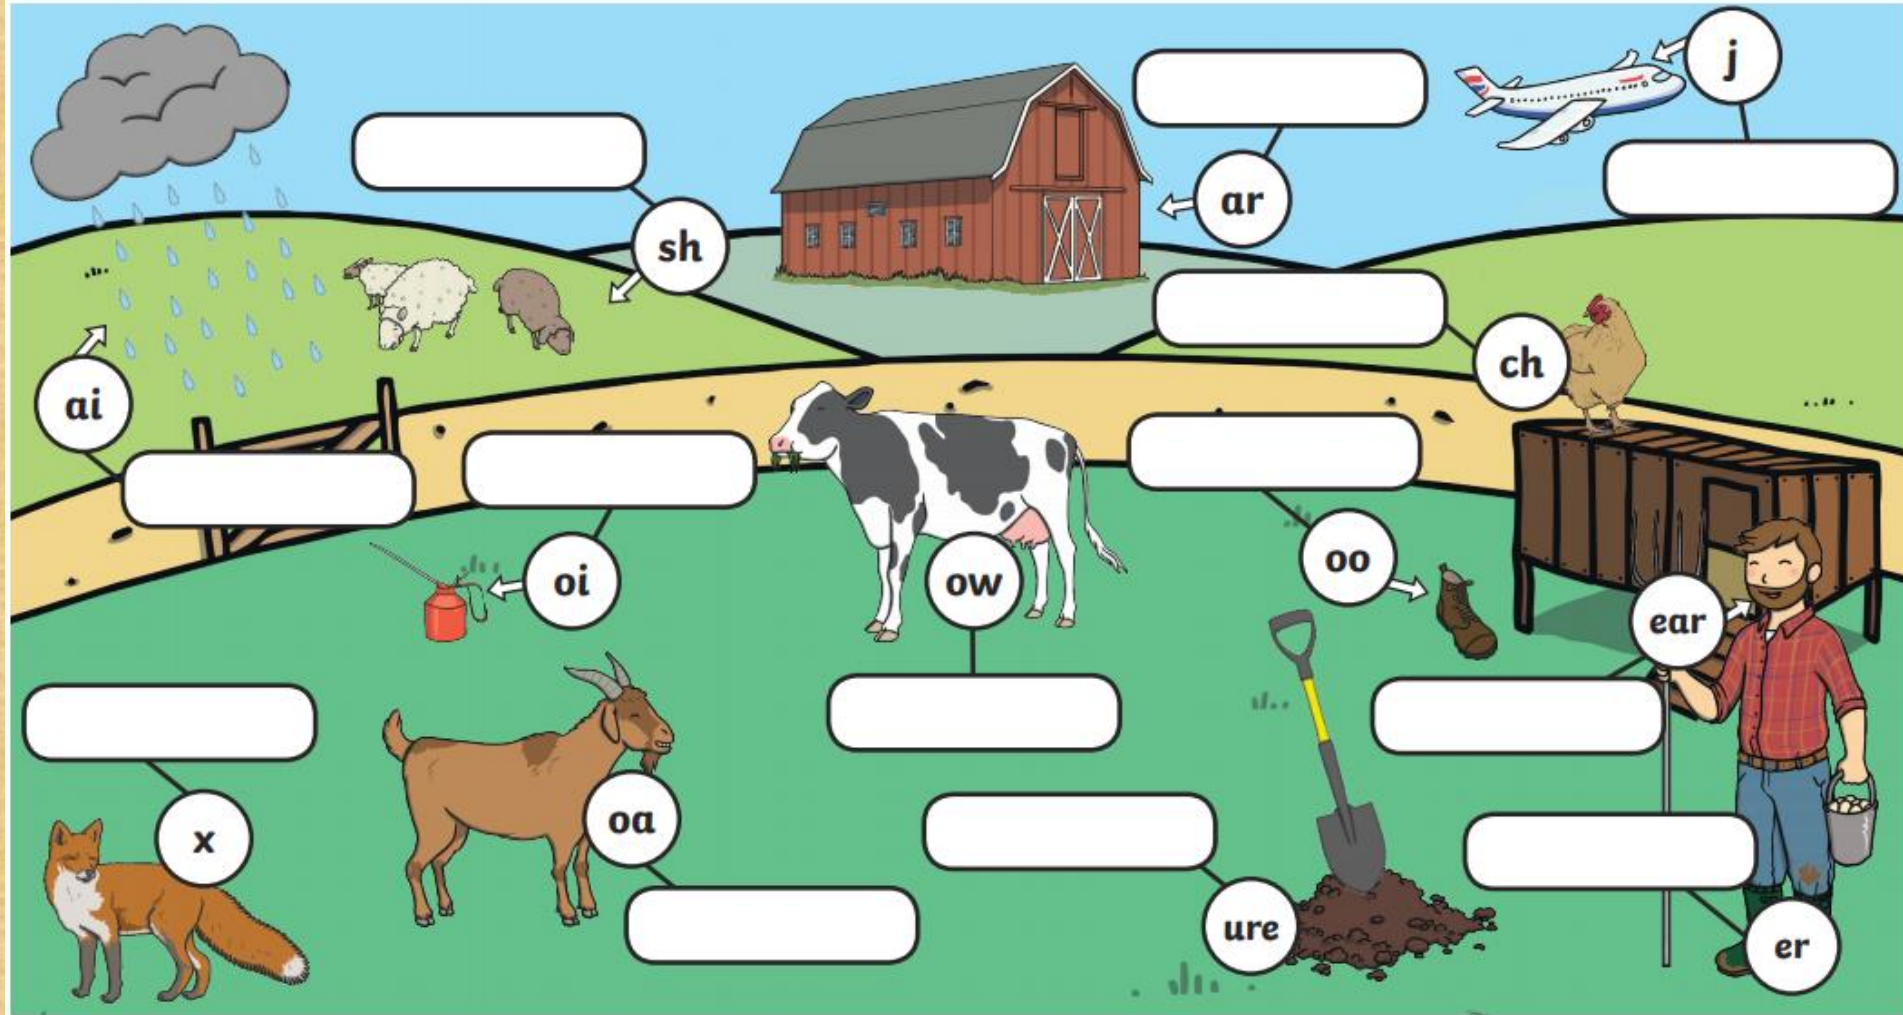

Fill in the missing sounds.

Fill in the missing sounds.

Challenge: you could always try and write your own sentence about the farm
