Version History Log for this document

Version	Date Published	Details of key changes from previous version
2	January 2020	Changed references from Data Protection Act 1998 to Data Protection Act 2018
1	March 2018	New policy formed to supersede previous Data Protection Policy

Purpose of Policy

This policy is intended to ensure that personal information is dealt with correctly and securely and in accordance with the Data Protection Act 2018, and other related legislation. It will apply to information regardless of the way it is collected, used, recorded, stored and destroyed, and irrespective of whether it is held in paper files or electronically.

All staff involved with the collection, processing and disclosure of personal data will be aware of their duties and responsibilities by adhering to these guidelines.

Roles within the school

Data Protection Officer (DPO) - Ms. L. Almond

Senior Information Risk Owner (SIRO) - Mr. S. Proctor

Information Champion (IC) - Mrs. A. Cain

Information Governance Governor - Mr. I. Holroyd

What I must do	Why I must do it	How I will do it
All employees must comply with the requirements of Data Protection Law and Article 8 of the Human Rights Act when processing the personal data of living individuals.	To comply with legislation.	By following the points in this policy.
Where personal data is used we must make sure that the data subjects have access to a complete and current Privacy Notice.	To comply with Data Protection legislation which requires us to make the data subject aware of how we will handle their personal data.	By approving and reviewing a compliant privacy notice in line with the Privacy Notice Procedure and making it available to the data subjects.
We must formally assess the risk to privacy rights introduced by any new (or change to an existing) system or process which processes personal data.	To ensure that the rights of the Data Subject are protected in any proposed new activity or change to an existing one.	By completing and approving a Privacy Impact Assessment, or Data Protection Impact Assessment where the processing is 'high risk' to the rights of the data subjects.
We must process only the minimum amount of personal data necessary to deliver services.	The law states that we must only process the minimum amount of information needed to carry out our business purpose. It is not acceptable to hold information on the basis that it might possibly be useful in the future without a view of how it will be used. Changes in circumstances or failure to keep the information up to date may mean that information that was originally adequate becomes inadequate.	By ensuring that the means we use to gather personal data (such as forms etc) only ask for the information that is required in order to deliver the service.
All employees who record opinions or intentions about service users must do so carefully and professionally.	To maintain professional standards and to assist in defending the validity of such comments if the data subject exercises their rights to ask us to amend or delete their personal data if they feel it to be inaccurate.	By considering that anything committed to record about an individual may be accessible by that individual in the future or challenged over its accuracy.

<p>We must take reasonable steps to ensure the personal data we hold is accurate, up to date and not misleading.</p>	<p>To comply with a principle of Data Protection law.</p>	<p>For example, there should be at least an annual check of the currency of data held about service users and whenever contact is re-established with a service user, you should check that the information you hold about them is still correct.</p>
<p>We must rely on consent as a condition for processing personal data only if there is no relevant legal power or other condition.</p>	<p>To comply with Data Protection law. Where processing does not rely on a legal condition other than consent</p>	<p>By following the points in the Consent Procedure.</p>
<p>Consent must be obtained if personal data is to be used for promoting or marketing goods and services.</p>	<p>When using personal data for marketing and promoting services it is unlikely that any lawful condition other than consent would apply.</p>	<p>By following the points in the Consent Procedure.</p>
<p>We must ensure that the personal data we process is reviewed and destroyed when it is no longer necessary.</p>	<p>To comply with a principle of Data Protection law.</p>	<p>By following the points in the Records Management Policy. We must review personal data regularly and delete information which is no longer required; although we must take account of statutory and recommended minimum retention periods. Subject to certain conditions, the law allows us to keep indefinitely personal data processed only for historical, statistical or research purposes. The Retention Schedule will give guidance in these areas.</p>
<p>If we receive a request from a member of the public or colleagues asking to access their personal data, we must handle it as a Subject Access Request.</p>	<p>To comply with the right to access personal data.</p>	<p>By following the points in the Statutory Requests for Information Policy.</p>
<p>If we receive a request from anyone asking to access the personal data of someone other than</p>	<p>To comply with a principle of Data Protection law.</p>	<p>By following the points in the Statutory Requests for Information Policy. Such requests would typically be managed under the Freedom of</p>

<p>themselves, we must fully consider Data Protection law before disclosing it.</p>		<p>Information Act (if from a member of the public) or under Data Protection or Justice law if for a criminal investigation, however the decision whether or not to disclose someone's personal data to a third party must satisfy the requirements of Data Protection law.</p>
<p>When someone contacts us requesting we change the way we are processing their personal data, we must consider their rights under Data Protection law.</p>	<p>To comply with the rights of the Data Subject under Data Protection law.</p>	<p>By reviewing the impact of any requested change on any statutory duty being fulfilled by the Organisation.</p>
<p>You must not access personal data which you have no right to view.</p>	<p>Personal data must be protected by effective security controls to ensure that only those with approved business need to access the data can do so.</p>	<p>By being aware through training and guidance from your manager on what information is appropriate for you to access to do your job. Systems and other data storage must be designed to protect access to personal data. You must inform your manager if you have access to data which you suspect you are not entitled to view.</p>
<p>You must follow system user guidance or other formal processes which are in place to ensure that only those with a business need to access personal data are able to do so.</p>	<p>Personal data must be protected by effective security controls to ensure that only those with approved business need to access the data can do so.</p>	<p>By ensuring appropriate security controls are in place and rules to support those controls are followed. The following should be in place:</p> <ul style="list-style-type: none"> • technical methods, such as encryption, password protection of systems, restricting access to network folders; • physical measures, such as locking cabinets, keeping equipment like laptops out of sight, ensuring buildings are physically secure; and • organisational measures, such as:

		<ul style="list-style-type: none"> i. Providing appropriate induction and training so that staff know what is expected of them ii. Taking reasonable steps to ensure the reliability of staff that access personal data, for example, by the use of Disclosure and Barring Service (DBS) checks. iii. Making sure that passwords are kept secure, forced to be changed after an agreed period and are never shared
You must share personal data with external bodies who request it only if there is a current agreement in place to do so or it is approved by the Data Protection Officer.	To comply with the legal requirements to keep personal secure but also to ensure that where there are legal grounds to share information in a managed way that this is done correctly.	Consult your manager, any procedure guidance or any library of sharing agreements managed by the Organisation. Consult the Data Protection Officer in one-off cases of sharing.
Where the content of telephone calls, emails, internet activity and video images of employees and the public is recorded, monitored and disclosed this must be done in compliance with the law and the regulator's Code of Practice.	The law permits organisations to hold such data in order to measure the quality of services being provided, to record consent etc. In certain circumstances recordings may be accessed e.g. to investigate alleged criminal activity or breaches of Organisation policy etc.	By ensuring that employees and members of the public are fully aware of what personal data is being recorded about them and why, and it what circumstances that data may be used. Operation of overt surveillance equipment such as CCTV must always be done in line with relevant codes of practice captured in the Surveillance Management Procedure. Any covert surveillance must be done in line with the provisions in the Investigatory Powers Act (2016).
All employees must be trained to an appropriate level, based on their roles and responsibilities, to be able to handle personal data securely.	To comply with a principle in Data Protection law.	By completing compulsory training courses relevant to your role.
When using 'data matching' techniques, this must only be done for specific purposes in line	To comply with the Data Subject's rights.	By ensuring an Impact Assessment has been approved for the activity.

with formal codes of practice, informing service users of the details, their legal rights and getting their consent where appropriate.		
We must maintain an up to date entry in the Public Register of Data Controllers.	This is a regulatory requirement and allows the public to see what personal information we hold to support transparency.	The entry should be reviewed annually and an update is to be made when any change to the purposes of processing personal data occur.
Where personal data needs to be anonymised or pseudonymised, for example for research purposes, we must follow the relevant procedure.	Where personal data is used for research purposes, the processing of the data can be legitimised by provisions within Data Protection law.	Follow the guidance in the Data Minimisation Procedure.
You must not share any personal data held by us with an individual or organisation based in any country outside of the European Economic Area.	To comply with the right of the Data Subject to have equivalent legal safeguards in place over their data in another country as they would here. The member states of the EEA share common legislation which provides assurance to us that personal data will be securely handled under the same provisions that exist under the Data Protection Act.	Consult the Data Protection Officer over any proposed sharing outside of the EEA. If you are a manager who is proposing a change to or implementing a new system which may involve the hosting of personal data in a nation outside the EEA, this must be first approved by a Privacy Impact Assessment.

Complaints

Complaints will be dealt with in accordance with the school's complaints policy. Complaints relating to information handling may be referred to the Information Commissioner (the statutory regulator). The school's complaints policy can be found on the school's website.

What if I need to do something against the policy?

If you believe you have a valid business reason for an exception to these policy points, having read and understood the reasons why they are in place, please raise a formal request by contacting Mr. S. Proctor (Head Teacher - SIRO - head@hadleigh-inf.essex.sch.uk)

Breach Statement

Breaches of Information Policies will be investigated and may result in disciplinary action. Serious breaches of Policy may be considered gross misconduct and result in dismissal without notice, or legal action being taken against you.

Contacts

If you have any enquires in relation to this policy, please contact Mr. S. Proctor (the school's Head Teacher) on 01702557979 or head@hadleigh-inf.essex.sch.uk . The Head Teacher will also act as the contact point for any subject access requests.

Further advice and information is available from the Information Commissioner's Office - www.ico.gov.uk
