

DUCKS

Ducks like to swim in the water. This duck has white feathers and a yellow bill.

What is that swimming in the lake? You're right! It's a duck. Ducks are a type of bird. Some ducks have white feathers. Some ducks have brown feathers. Some ducks even have blue and green feathers.

Mother ducks lay eggs in a nest on the ground. Some ducks lay about 12 eggs at a time.

1. Think about an animal you are really interested in or that you know a lot about. You may need to do some research about your animal. Ask a grown up to help you do this. Find out as much as you can.

2. Look at the page about ducks. How many different ways has this author shown the animal facts? Look out for...
